

Digital Badges Verify Your CMSRN Certification ^[1]

Digital Badges Give Proof of Certification for Verification

Verifying certification is an essential part of the hiring process within health care organizations. It's also important for certificants to have possession of proof of their hard work and their accomplishment of certification.

Verification allows nurses to easily and accurately provide their credentials to current and potential employers, and assures hiring managers that their staff, new hires and applicants have earned their CMSRN certification as indicated.

We offer two methods to verification for all certifications. **Digital Badges** and a **Certification Verification Form**. ? Scroll down this page for information on both of these options.

The MSNCB Certificant Directory has been discontinued, as all certificants now have access to their digital badge.

Digital Badges

What is a digital badge?

A digital badge is an online representation of accomplishment such as earning the CMSRN certification. It is a credible source and an easy way for others to verify your certification. Digital badges can be shared online through your social media accounts and can be added to your email signature.

A digital badge acknowledges your achievements more quickly by having the ability to share in a matter of minutes. It informs your peers and employers of the knowledge, skills and competencies you have within your professional practice, all by successfully passing the certification exam.

Is the digital badge information accurate?

Absolutely! MSNCB maintains certification information so you can trust that it is accurate and reliable. Your digital badge will update within 24 hours of becoming certified or renewing your certification.

How Do I Find and Use My Digital Badge?

- It's simple! Shortly after you become certified, you will receive an email from MSNCB with instructions to claim your badge from our partner, BadgeCert. All current certificants will also have received this email. Contact us for assistance if you need a new email to claim your badge.
- Share your badge with your employer and add it to your social media accounts, email signature, resume, LinkedIn profile, and more.
- Clicking on the digital badge will safely and securely provide your latest certification data including status, ID number, issue and expiration dates, and the skills needed to achieve your credential.

Certification Verification Form

The easiest and quickest way to show proof of your certification is by sharing your digital badge. If needed, a verification form can be completed and returned to the National Office at msncb@msncb.org [2]. This request allows the credential holder to receive proof of certification on MSNCB letterhead. It is up to the candidate to assist the other party in obtaining the verification report.

1. Credential holder must request a Certification Verification Form from the National Office at msncb@msncb.org [2] or use the third party's form.
2. Complete the candidate portion of the form along with signature and submit it to your party requesting the

verification.

3. The party requesting the information will submit the verification form along with payment information for the \$20 verification fee to the National Office.
4. Please allow 3-5 business days for processing. The completed letter will include candidate's name, certification number, and certification start and end dates. The letter will be sent via email to the requesting party. Candidates will receive a copy of this email for their records.
